

January 2010

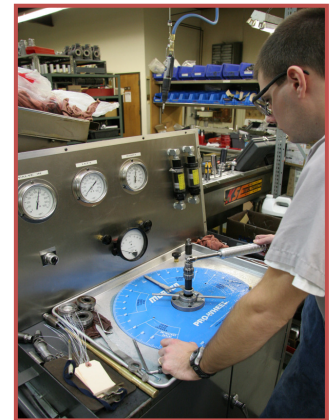

We Steer The Best
East To West!

Factory Repair Services

Keep Your Equipment In Top Condition!

Let the experts at KSE service your equipment with the same care they use to manufacture every new gear and pump. KSE's rigorous process involves a complete tear-down, "blue-print" inspection, and 100% testing of your unit to ensure "like new" performance.

Whether it's a "battle weary" gear or simply a "once over" before next season, trust your equipment to KSE's experts!
